WORK EXPERIENCE

Campus Web Solutions

Full-Stack Web Developer

Auburn, AL

January 2023 – Present

- Leveraged the entire .NET tech stack including C#, JavaScript, HTML, CSS, SQL, and Razor within an Agile workflow process to proficiently design, maintain, and troubleshoot dynamic web applications.
- Developed an automated email hub for Auburn University's Campus Event Planning System website, enhancing engagement and communication for committee members, event submitters, and non-submitters through automated emails across 15+ different scenarios.
- Pioneered the development and implementation of the CWS Spring 2024 Bootcamp Project, offering comprehensive training to new co-op team members in the technologies and frameworks critical to our operations.

Chick-fil-A

Shift Leader

Auburn, AL

May 2021 – December 2022

- Provided exceptional service to ensure appropriate changes were made to resolve customers' problems.
- Assisted others and provided on-the-job training related to our brand's core values.
- Discussed job performance issues discretely with employees to identify issues to work on resolving problems.
